

High definition of 13 megapixels

World thinness portable Visualizer

VISUAL PRESENTER MX-P

Experience Incredible high-definition image

ULTRA HIGH DEFINITION

Maximum resolution 4,160 x 3,120 representation to detail in high definition. To a monitor / projector realizing the clear and fineness of the real image that projecting.

FLEXIBLE CAMERA HEAD

The camera head can rotate 90 degrees left and right. Vertical or horizontal is free movement, utilize space-saving. Show any angle to display the materials.

HIGH PORTABILITY

2.2cm thin, weight 550g. Ease of carrying around.

SMOOTH MOTION

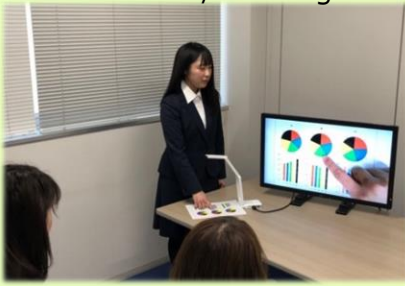

4K/30fps, Full HD / 60 fps output possible. Reproduce smooth motion with high image quality, no delay, fine hand motion that changes in science experiments.

FULFILLING INTERFACE

Easy connect with a monitor / projector with one cable such as HDMI / RGB.

Enlarge on monitor(via HDMI/RGB)
Classroom lesson / Meeting

Web camera(via USB)
Distance classroom / Web conference

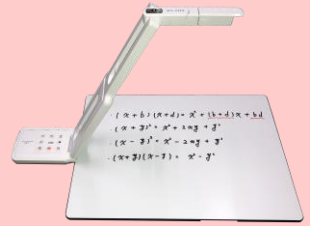

New!

Multi Communication Board for MX-P

Size: L288 mm × W390 mm
Weight: 280 g

MX-P installation image

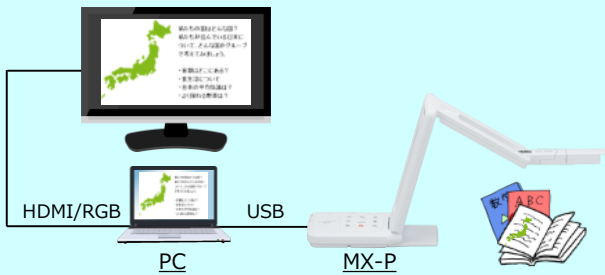

When writing on the multi-communication board while projecting with MX-P can enlarge-scale of presentation by handwritten and connect with devices or PC while displaying to all participants.
